

# Join the Regional Air Quality Coalition

The North Carolina Air Awareness Coalition is a partnership of businesses, organizations, and government agencies who share concerns about the local air quality. This air quality coalition provides leadership that educates and mobilizes individuals to reduce their contribution to air pollution and to protect their health on days when air quality is not as good as it should be. The work done by our coalition members is an invaluable part of the Air Awareness Program – we need your support!

As a coalition member you will receive, free of charge:

- 1) Invitations to coalition events featuring topics and speakers relevant to air awareness issues.
- 2) An email or fax air quality forecast for your area for each day or the day before the predicted AIR QUALITY ACTION DAY (high air pollution day) occurrence.
- 3) An Air Care Package. This package contains information to help you inform co-workers and colleagues as to how ground-level ozone affects their health and quality of life, and what they can do to reduce ozone air pollution. We will provide you with easy to use forecast posters, as well as, other helpful educational tools.
- 4) Any additional up to date Air Quality information that you may request.

As a coalition member, you are expected to:

- 1) Inform your colleagues and co-workers when the next day is an AIR QUALITY ACTION DAY and tell them what they can do to protect their health and improve the air quality.
- 2) Make the Air Care Information / Posters available to your colleagues and co-workers.

We all need to work together to keep the North Carolina skies a beautiful clear blue. Please take the time to sign up today by completing the form on the opposite side of this sheet and faxing or mailing a copy to:

Department of Environment and Natural Resources  
NC Division of Air Quality  
Attention: Milli Hayman  
1641 Mail Service Center  
Raleigh, NC 27699-1641 (919) 715-6267  
or fax to: NC Air Awareness, (919) 715-7476
